I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content.	I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content
I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I approve the final version of the solution as submitted. I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I approve the final version of the solution as submitted. I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content.	✓ I approve the final version of the solution as submitted.
I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I approve the final version of the solution as submitted. I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I approve the final version of the solution as submitted. I approve the final version of the solution as submitted. I approve the final version of the solution as submitted. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content.	Signed, Robert Wash
design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I approve the final version of the solution as submitted. I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I approve the final version of the solution as submitted. I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content.	
I approve the final version of the solution as submitted.	design, prototype development, and/or the analysis and interpretation of data associated with the work
□ I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. □ I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. □ I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. □ I approve the final version of the solution as submitted. □ I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. □ I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. □ I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content.	I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content
□ I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. □ I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. □ I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. □ I approve the final version of the solution as submitted. □ I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. □ I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. □ I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content.	I approve the final version of the solution as submitted.
provide any unauthorized assistance on this assignment. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I approve the final version of the solution as submitted. I agree to abide by the McKelvey School of Engineering's Academic Integrity Policy and will not receive or provide any unauthorized assistance on this assignment. I have made a significant intellectual contribution to the theoretical development, system or experimental design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content.	Signed, Motthew Weber
design, prototype development, and/or the analysis and interpretation of data associated with the work contained in this problem solution. I have contributed to drafting the problem solution or reviewing and/or revising it for intellectual content. I approve the final version of the solution as submitted.
